

INNOVATION Precision engineered to meet the demanding needs of today's workflow-intensive environments, the Sharp Frontier Scan-Centric series brings scanning and integration to a whole new level. Enabled with Scan^{2™} Technology and the award-winning Sharp OSA® platform, the MX-C402SC and MX-B402SC offer highly advanced scanning capabilities, providing impressive automated workflow processing and streamlined workgroup productivity. For true versatility in accommodating diverse scanning and copying needs, the Scan-Centric series single pass document feeder is also equipped with dual scanning paths, capable of feeding heavy media such as plastic ID or business cards. To help stay ahead of today's fast-paced office document distribution needs, the large touch screen color display simplifies operation through an intuitive graphical user interface, while the full-size retractable keyboard puts data entry right at your fingertips. Built on the same cutting-edge engine design as the Frontier series MFPs and printers, the MX-C402SC and MX-B402SC merge the multifunctional power of standard A3 copiers with the convenience and simplicity of single-function printers, and the document handling capabilities of single-function scanners. The Sharp Frontier series: more power with less complexity, so you can work without limits.

RETRACTABLE KEYBOARD
SHARP OSA® TECHNOLOGY

- Vivid color[†] and crisp black-and-white documents can be quickly produced at speeds up to 40 pages per minute and at print resolutions up to 1200 x 1200 dpi.
- Powerful controllers for true multi-tasking performance and superior multi-functional productivity.
- High performance Duplex Single Pass Feeder empowered with Scan² technology offers unparalleled reliability and supports full-color scanning.
- Dual scanning paths provide the versatility to scan and copy diverse media types: a curved path for regular paper, and a straight path for feeding heavy media, such as plastic ID cards and business cards.
- Retractable QWERTY keyboard allows for easy and convenient data entry for document distribution and retrieval.

- Sharp's ImageSEND™ technology helps securely scan documents to seven types of destinations at speeds up to 50 images per minute.
- Sharp's easy-to-use Document Filing System provides up to 50 GB of hard drive space for fast document storage and retrieval, with thumbnail view and image preview capabilities.
- Large high-resolution, touch screen color display with intuitive graphical user interface makes advanced multi-function features easy to use.
- The optional, space-saving Inner Finisher not only provides exceptional productivity, but also automates time-consuming tasks such as stapling, sorting and offset stacking.
- Standard third-generation Sharp OSA development platform enables users to access network applications, helping to reduce redundancy and streamline workflow.
- Supports Sharp's latest award-winning multi-level document and network security suite, which conforms to the IEEE-2600™-2008 security standard for MFP devices.*
